

Summers Here at Teen Stop Jeunesse

Summer is finally here at Teen Stop and that means staff and youth have been really busy with summer programming. We have extended our hours from 11:00am-11:45pm, giving us the ability to run our programs longer. Our life skills program now provides lunch, supper and snack making sure youth are fed throughout the day. We also have 2 camp trips planned thanks to YAA(youth agencies alliance) and many other fun field trips and outings. Last we would like to say congratulations to all our youth who graduated this year and also to the youth who will be moving on to a new grade in school.

Rotary and Co-Op

Our rotary and co-op programs are in full swing and the youth from each program have been really busy. So far our rotary youth have helped out at Winnipeg harvest, Siloam Mission, and held a fundraiser for a pet shelter. Our Co-op youth have been busy getting their name out in the community and have had pretty good success so far at finding work and contracts.

What We Been Up To

Rotary youth visiting a sweat lodge

Youth from our Co-Op program

Staying cool at our center

Our monthly birthday celebration

Our Music Studio Is Done..

After a lot of hard work we have finished our music studio. Staff have been really busy learning the new equipment and getting everything ready. We are so pleased at Teen Stop that we can offer this into our programming for the youth, and are always looking for ways that encourage youth to grow and express their creativity side. If you know any youth that would love to record or even just learn the aspects of recording please send them by.

Music Program runs Monday to Friday
4:30-11:30

Directors Note

There are many things happening at Teen Stop Jeunesse. Of course none bigger than the changes made to the music room, the youth are producing their own recordings.

We are so happy to be able to include another learning experience for the Youth of our community. As was stated in the movie Field of dreams if you build it they will come and boy are they.

The learning has not only been by the youth in the programs but also the mentors in the program. The equipment is state of the art and not for the technically challenged such as me. The Attendance this summer has been absolutely outstanding and all programs are seeing increase in numbers.

Our participants always drive the changes we make to programming and they are never wrong. We will be unveiling TSJ Studios at our AGM on August 27, 2015.

Patrick LeBlanc
Executive Director

AGM and School of Rock Re-opening

Come join us on August 27 for our AGM(annual general meeting) and also the grand re-opening of our school of rock/TSJ studio program. There will be a BBQ, crafts, tour of our new music studio and live music performed by some amazing youth involved in our school of rock music program./-

This is a free event and we would love to see you there.
